Turtle Tuff™ Splashproof Halogen							
Powersun UV®							
Repticare® Ceramic Heat Emitter							
Reptisun® 5.0							
Reptisun® 10.0							
Naturesun®							

Heat bulbs help maintain optimum terrarium temperatures.

Basking bulbs provide a focused beam of heat which is essential for many reptile species.

UVB is essential to the health of many reptiles and helps them maintain strong bones.

UVA helps reptiles to see accurately and can promote natural behaviors.

Night time viewing bulbs provide enough light for people to watch their pets at night, but do not disturb the day and night cycle of the animal.

Visible Daylight is important to establish a natural light cycle for the animal and should be used for 12-14 hours a day.

A Splashproof bulb is ideal for an aquatic habitat where animals, such as turtles, may splash it.

ZOO MED OFFERS HOODS FOR EVERY LAMP THAT WE SELL, HERE ARE A FEW OF OUR AVAILABLE FIXTURES AND THE LAMPS THAT CAN BE SAFELY USED WITH THEM.
